Profile Summary

- Web Developer & UX Designer with experience in web-based applications, specializing in Laravel and Tailwind CSS.
- Strong design foundation, built through a vocational multimedia major and further refined in Information Systems studies.
- Completed multiple UX projects, including a 70-day UI replication challenge and 10-day UX design projects covering wireframing, prototyping, and user journeys.
- Designed the official logo for the Information Systems department at ITATS and conducted a UX case study on ArchDaily Platform.

Relevant Coursework

- Information Systems Programming
- Software Engineering
- Project Management
- Software Quality Management
- Human-Computer Interaction
- Graphic Design

Experience

Department Cooperatives and Small Medium Enterprise, East Java | Jan 2023 - Mar 2023
IT Management Intern

- Utilized COBIT5 to align organizational and IT goals with IT processes, ensuring efficient tracking and progress monitoring.
- Assisted in mapping IT processes to business objectives, improving IT governance and compliance.
- Guided 150+ individuals in legally registering businesses on oss.go.id, securing tax codes, and facilitating access to financial aid.

Projects

Personal Website | Rive, Tailwind CSS, ReactJS, GitHub | GitHub Repo   **Feb 2025**

- Built with React and Tailwind CSS, featuring interactive elements, optimized performance, and a responsive UI for showcasing projects.

KEMUDI | VS Code, Tailwind CSS, Laravel, GitHub | Live Projects   **Dec 2024**

- A web-based platform to connect students, instructors, and driving schools, streamlining communication and improving the learning experience. Created as a capstone project, it showcases both UI/UX design and full-stack development skills.

70RAD Design Challenge | Figma, Adobe Illustrator | Report in Progress   **Mar 2024**

- Completed a 70-day design challenge with daily UI tasks to sharpen design skills and seven UX projects focused on user research, moodboarding, wireframing, and prototyping, strengthening both visual design precision and UX problem-solving abilities.

Official Logo of Information Systems ITATS | Adobe Illustrator | Link to Projects   **Aug 2023**

- Created the winning logo for Information Systems ITATS despite no prior experience, quickly learning branding and design principles to develop a concept that became the department's official logo.
